SUN PEAK METALS CORP.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2021

(Unaudited – Expressed in Canadian dollars)

1. NATURE OF OPERATIONS

Sun Peak Metals Corp. (the “Company”) is a publicly traded company incorporated pursuant to the provisions of the British Columbia Business Corporations Act on June 2, 2016. Effective August 17, 2020, the Company’s common shares commenced trading on the TSX Venture Exchange (“TSX-V”) under the symbol PEAK. Effective March 4, 2021, the Company’s common shares commenced trading on the OTCQB Venture Market in the United States under the symbol SUNPF. The Company’s head office and registered and records office address is Unit 1 – 15782 Marine Drive, White Rock, B.C. Canada V4B 1E6.

The Company’s principal business is the acquisition, exploration, and development of resource properties for the mining of precious or base metals.

The Company organized its wholly owned subsidiary, Sun Peak Ethiopia Mining PLC (“Sun Peak Ethiopia”) under the provisions of the Commercial Code of Ethiopia on October 3, 2016. Sun Peak Ethiopia holds two exploration licenses in Ethiopia (Note 8).

In addition to Sun Peak Ethiopia, the Company also has an agreement with Ezana Mining Development plc (“Ezana”), that governs the funding and activities of Axum Metals Share Company (“Axum”). Axum holds two exploration licenses in Ethiopia (Note 9).

In late November 2020, the Company declared force majeure on all four of its exploration licenses by notification to Ethiopia’s Ministry of Mines and Petroleum. In March 2021, the Company received letters from the Ministry of Mines and Petroleum stating that the Ministry has accepted the force majeure declaration on all four exploration licenses. During the force majeure event all work and contractual commitments on the projects are deferred. Currently, all exploration work on the projects remains suspended due to continued unrest in the Tigray Region of Ethiopia which began in November 2020.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, customers, economies, and financial markets globally. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company’s business. Risks include, but are not limited to, the ability of the Company to raise funds, the ability of the Company to conduct operations in the event of safety lockdowns, the inability to travel for professionals and contractors involved in exploration, regional travel and quarantine restrictions within the country, and the disruption of shipping material and samples to and from the project. The Company suspended exploration operations in March 2020 due to the pandemic and implemented a COVID response plan to comply with local and international regulations. In September 2020, the Company returned to full exploration operations in Ethiopia, however in November 2020, suspended exploration operations again due to the conflicts in Ethiopia.

SUN PEAK METALS CORP.**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

For the six months ended June 30, 2021

(Unaudited – Expressed in Canadian dollars)

1. NATURE OF OPERATIONS (continued)

These consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. As at June 30, 2021, the Company had working capital of \$8,769,222. Management estimates that these funds will provide the Company with sufficient financial resources to carry out its exploration and operations through the next twelve months.

These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). The policies applied in these condensed interim consolidated financial statements are based on International Financial Reporting Standards (“IFRS”) issued and outstanding as at the date the Board of Directors approved these condensed interim consolidated financial statements for issue.

These condensed interim consolidated financial statements do not include all of the information and disclosures required by IFRS for annual financial statements and therefore should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2020.

Basis of measurement

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Functional and presentation currency

These condensed interim consolidated financial statements are presented in Canadian dollars, which is the parent Company’s functional currency as well as being the functional currency for the Company’s Ethiopian subsidiary.

SUN PEAK METALS CORP.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2021

(Unaudited – Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (continued)

Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(i) Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and are, but are not limited to, the following:

The carrying value and the recoverability of exploration and evaluation assets - Management has determined that exploration and evaluation costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, scoping and feasibility studies, accessibility of facilities and existing permits.

(ii) Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are, but are not limited to, the following:

Determination of functional currency - In accordance with IAS 21, "The Effects of Changes in Foreign Exchange Rates" management determined that the functional currency of the parent Company as well as the Company's Ethiopian subsidiary is the Canadian dollar.

Capitalization of deferred acquisition costs - The Company has entered into an agreement to acquire a company holding mineral projects. The expenditures incurred on the mineral projects are being accounted for as advances toward the purchase of a company interest in accordance with IFRS 10 and capitalized to the statement of financial position. Upon attaining control of the company, the Company will consolidate it as a subsidiary.

Equity investment - The Company has a 25% interest in the shares of Kandaka Mining Corp. ("Kandaka") and a director of the Company is the sole director of Kandaka. The Company has determined that it has significant influence in Kandaka, therefore the Company accounts for this investment using equity accounting.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Company in these condensed interim consolidated financial statements are the same as those applied by the Company as at and for the year ended December 31, 2020, except as noted below:

Equity investment

The Company accounts for its investment in an affiliated company, over which it has significant influence, using the equity method of accounting, whereby the investment is initially recorded at cost, adjusted to recognize the Company's share of earnings or losses and reduced by dividends received.

The Company assesses its equity investments for impairment if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the equity investment and that the event or events have an impact on the estimated future cash flow of the investment that can be reliably estimated. Objective evidence of impairment of equity investments includes:

- significant financial difficulty of the associated companies;
- becoming probable that the associated companies will enter bankruptcy or other financial reorganization; and
- national or local economic conditions that correlate with defaults of the associated companies.

Standards issued but not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of June 30, 2021 and have not been applied in preparing these consolidated financial statements. In addition, these standards are not expected to impact the Company.

13. RELATED PARTY TRANSACTIONS (continued)

Amounts due to related parties

As at June 30, 2021, the Company owed \$440 (December 31, 2020 – \$27,421) to related parties, being \$440 to Golden Oak for the reimbursement of expenses. All amounts owed are unsecured and non-interest bearing and are recorded in trade and other payables (Note 11).

14. SEGMENTED INFORMATION

Operating segments are identified on the basis of internal reports that are regularly reviewed by the chief operating decision-maker to allocate resources to the segments and to assess their performance.

The chief operating decision-maker who is responsible for allocating resources and assessing performance of the operating segments, has been defined as the Chief Executive Officer.

The Company operates in a single segment, being mineral exploration and evaluation.

With the exception of the cash disclosed in Note 4, all of the Company's significant assets are located in Ethiopia.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Instruments

Financial instruments are classified into one of the following categories: fair value through profit or loss ("FVTPL"); fair value through other comprehensive income ("FVTOCI"); or at amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

		June 30, 2021	December 31, 2020
Cash	FVTPL	\$ 8,655,167	\$ 9,760,495
Receivables	Amortized cost	119,185	183,313
Trade and other payables	Amortized cost	22,334	212,469

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.
