The accompanying notes are an integral part of these condensed interim consolidated financial statements.

1. NATURE OF OPERATIONS

Sun Peak Metals Corp. (the "Company") is a publicly traded company incorporated pursuant to the provisions of the British Columbia Business Corporations Act on June 2, 2016. The Company's common shares are listed for trading on the TSX Venture Exchange under the symbol PEAK and on the OTCQB Venture Market in the United States under the symbol SUNPF. The Company's head office and registered and records office address is Unit 1 – 15782 Marine Drive, White Rock, B.C. Canada V4B 1E6.

The Company's principal business is the acquisition, exploration, and development of resource properties for the mining of precious or base metals in Ethiopia.

In November 2020, armed conflicts broke out in the Tigray Region of northern Ethiopia and a state of emergency was declared in the Tigray Region by the Federal Democratic Republic of Ethiopia government. The Company immediately suspended all work programs and invoked force majeure by notification to Ethiopia's Ministry of Mines and Petroleum. In November 2022, a peace agreement named "Agreement for Lasting Peace through a Permanent Cessation of Hostilities" was announced between the conflicting parties. The Company received notification letters from the Ministry of Mines declaring that force majeure has ended for three of its exploration licenses in 2024 (Note 8 & 9).

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. As at June 30, 2024, the Company had working capital of $4,265,585. Management estimates that these funds will provide the Company with sufficient financial resources to carry out currently planned operations through the next twelve months.

These condensed interim consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). The policies applied in these condensed interim consolidated financial statements are based on IFRS Accounting Standards issued and outstanding as at the date the Board of Directors approved these condensed interim consolidated financial statements for issue.

These condensed interim consolidated financial statements do not include all of the information and disclosures required by IFRS for annual financial statements and therefore should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2023.

Basis of measurement

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

2. BASIS OF PRESENTATION (continued)

Functional and presentation currency

These condensed interim consolidated financial statements are presented in Canadian dollars, which is the parent Company's functional currency as well as being the functional currency for the Company's Ethiopian subsidiary.

Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRS Accounting Standards requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(i) Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and are, but are not limited to, the following:

The carrying value and the recoverability of exploration and evaluation assets - Management has determined that exploration and evaluation costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, scoping and feasibility studies, accessibility of facilities and existing permits.

(ii) Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are, but are not limited to, the following:

Determination of functional currency - In accordance with IAS 21, "The Effects of Changes in Foreign Exchange Rates" management determined that the functional currency of the parent Company as well as the Company's Ethiopian subsidiary is the Canadian dollar.

Capitalization of deferred acquisition costs - The Company has entered into an agreement to acquire a company holding mineral projects. The expenditures incurred on the mineral projects are being accounted for as advances toward the purchase of a company interest in accordance with IFRS 10 and capitalized to the statement of financial position. Upon attaining control of the company, the Company will consolidate it as a subsidiary. On a quarterly basis, the Company assesses the deferred acquisition costs to determine if any impairment indicators are present.

Equity investment - The Company has a 25% interest in the shares of Kandaka Mining Corp. ("Kandaka") and a director of the Company is the sole director of Kandaka. The Company has determined that it has significant influence in Kandaka, therefore the Company accounts for this investment using equity accounting.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies applied by the Company in these condensed interim consolidated financial statements are the same as those applied by the Company as at and for the year ended December 31, 2023.

New accounting policy

The following amendments to existing standards have been adopted by the Company commencing January 1, 2024:

IAS 1, Presentation of Financial Statements

Amendments to IAS 1 Presentation of Financial Statements clarify how to classify debt and other liabilities as current or non-current. The amendments help to determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or noncurrent. The amendments also include clarifying the classification requirements for debt an entity might settle by converting it into equity. The adoption of these amendments did not materially impact these condensed interim consolidated financial statements.

New standards, interpretations and amendments not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of June 30, 2024 and have not been applied in preparing these condensed interim consolidated financial statements.

Amendments to IAS 1 Presentation of Financial Statements clarify how to classify debt and other liabilities as current or non-current. The amendments help to determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or noncurrent. The amendments also include clarifying the classification requirements for debt an entity might settle by converting it into equity. The Company has not early adopted this revised standard and its adoption is not expected to have a material impact on the Company's consolidated financial statements.

On April 9, 2024, the IASB issued IFRS 18 "Presentation and Disclosure in the Financial Statements" ("IFRS 18") replacing IAS 1. IFRS 18 introduces categories and defined subtotals in the statement of profit or loss, disclosures on management-defined performance measures, and requirements to improve the aggregation and disaggregation of information in the financial statements. As a result of IFRS 18, amendments to IAS 7 were also issued to require that entities use the operating profit subtotal as the starting point for the indirect method of reporting cash flows from operating activities and also to remove presentation alternatives for interest and dividends paid and received. Similarly, amendments to IAS 33 "Earnings per Share" were issued to permit disclosure of additional earnings per share figures using any other component of the statement of profit or loss, provided the numerator is a total or subtotal defined under IFRS 18. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is to be applied retrospectively, with early adoption permitted. The Company is currently assessing the impact of the standard on its financial statements.

(Unaudited – Expressed in Canadian dollars)

12. SHARE CAPITAL

a) Authorized share capital

The authorized share capital is comprised of an unlimited number of common shares without par value.

b) Issued share capital

There were no common shares issued during the six months ended June 30, 2024.

c) Share-based compensation

The Company has a 10% "rolling" stock option plan which governs the granting of stock options to directors, officers, employees and consultants of the Company or a subsidiary of the Company for the purchase of up to 10% of the issued and outstanding common shares of the Company from time to time. The maximum term of stock options is ten years from the grant date. The exercise price and vesting terms are at the discretion of the directors.

In addition, the Company has an equity incentive plan (the "Equity Plan") which governs the granting of any restricted share unit, performance share unit or deferred share unit granted under the Equity Plan, to directors, officers, employees and consultants of the Company or a subsidiary of the Company. The Company has reserved for issuance up to 8,709,863 common shares, being 10% of the issued and outstanding common shares of the Company, pursuant to the Equity Plan.

The continuity of stock options for the six months ended June 30, 2024 is as follows:

Expiry date	*Exercise price*	Balance, December 31, 2023	Issued	Exercised	Cancelled/ Expired	Balance, June 30, 2024
August 17, 2025	*$ 0.35*	4,100,000	-	-	-	4,100,000
July 20, 2026	*$ 0.35*	225,000	-	-	-	225,000
January 18, 2028	*$ 0.235*	250,000	-	-	-	250,000
February 22, 2028	*$ 0.26*	2,150,000	-	-	-	2,150,000
March 8, 2029	*$ 0.50*	-	1,475,000	-	-	1,475,000
		6,725,000	1,475,000	-	-	8,200,000
Weighted average exercise price		$ 0.32	$ 0.50	$ -	$ -	$ 0.35

As at June 30, 2024, 8,175,000 stock options were exercisable with a weighted average remaining life of 2.54 years.

During the six months ended June 30, 2024, the Company recorded share-based compensation of $554,820 (2023 - $366,460) for stock options that vested during the period.

On March 8, 2024, the Company granted 1,425,000 stock options to directors, officers, employees and consultants of the Company at a fair value of $540,436 or $0.38 per option, all of which was recorded as share-based compensation for the six months ended June 30, 2024. The fair value of the options granted was determined using the Black-Scholes option pricing model with the following assumptions: a risk-free interest rate of 3.46%; an expected volatility of 100%; an expected life of 5 years; a forfeiture rate of zero; and an expected dividend of zero.

(Unaudited – Expressed in Canadian dollars)

12. SHARE CAPITAL (continued)

c) Share-based compensation (continued)

On March 8, 2024, the Company granted 50,000 stock options to a consultant of the Company at a fair value of $18,963 or $0.38 per option, of which $14,384 was recorded as share-based compensation for the six months ended June 30, 2024. The options vest 25% immediately and 25% every three months thereafter. The fair value of the options granted was determined using the Black-Scholes option pricing model with the following assumptions: a risk-free interest rate of 3.46%; an expected volatility of 100%; an expected life of 5 years; a forfeiture rate of zero; and an expected dividend of zero.

13. RELATED PARTY TRANSACTIONS

Compensation of key management personnel

Key management includes members of the Board of Directors, the President and Chief Executive Officer, the Vice President Exploration & Geology, the Vice President Project Development, the Chief Financial Officer, and the Corporate Secretary. The aggregate compensation paid, or payable, to key management personnel during the three and six months ended June 30, 2024 and 2023 was as follows:

13. RELATED PARTY TRANSACTION (continued)

During the six months ended June 30, 2024, the Company received salary reimbursements of $18,750 related to time spent by its senior management on SDC Resources Corp. ("SDC") business. These salary reimbursements were recorded as a credit to salaries and benefits on the statement of loss. SDC is a Canadian private mineral exploration company controlled by a private Abu Dhabi company whose sole director is also a director of the Company.

Amounts due to related parties

			June 30, 2024		December 31, 2023
Chief Executive Officer	Expenses	$	8,630	$	7,126
Vice President Project Development	Expenses		8,437		2,104
Golden Oak	Expenses		2,752		227
		$	19,819	$	9,457

14. SEGMENTED INFORMATION

Operating segments are identified on the basis of internal reports that are regularly reviewed by the chief operating decision-maker to allocate resources to the segments and to assess their performance.

The chief operating decision-maker who is responsible for allocating resources and assessing performance of the operating segments, has been defined as the Chief Executive Officer.

The Company operates in a single segment, being mineral exploration and evaluation.

With the exception of the cash disclosed in Note 4, all of the Company's significant assets are located in Ethiopia.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Instruments

Financial instruments are classified into one of the following categories: fair value through profit or loss; fair value through other comprehensive income; or at amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

		June 30, 2024	December 31, 2023
Cash	Amortized cost	$ 4,002,441	$ 6,511,177
Receivables	Amortized cost	192,379	106,959
Trade and other payables	Amortized cost	56,814	62,178

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The carrying values of cash, receivables and trade and other payables approximate their fair values due to their short-term nature. These financial instruments are classified as financial assets and liabilities at amortized cost and are reported at amortized cost.

Risk management

The Company's risk management objectives and policies are consistent with those disclosed by the Company for the year ended December 31, 2023.
